## HG tile cleaner (porcelain cleaner) (HG Product 16)

HG "tile cleaner" (porcelain cleaner) is a freshly scented, concentrated mopping cleaner especially developed specially for regular cleaning of all types of tile floors and floors made of non-calciferous natural stone. This product is also ideally suitable for decorative gravel floors. 1 litre is sufficient for 40 washes.

### Directions:

#### For regular cleaning:

Dissolve 25 ml (a quarter cup) in half a bucket (5L) of lukewarm water. For more intensive soiling, a stronger solution can be made of up to 100 ml (1 cup) of this product to half a bucket of water. Then clean the floor with a wrung-out mop or floor cloth, regularly rinsing it in the cleaning solution. Do not rinse or mop dry, simply leave the floor to dry on its own.

#### For extreme soiling and overdue maintenance:

See the HG floor tiles treating matrix on the side of this bottle.
